Subject: Small Businesses Account for 63% of Net New Jobs

To:

Hello Friends,

We have an event coming up on August 8th here in City Hall. This event will be conducted in Spanish. The information is below with an English & Spanish flyer attached. I would also like to take this moment to share two fun facts about small businesses in the U.S. I have also attached an infographic of this data.

According to the U.S. Small Business Administration Office of Advocacy in a report analyzing data from 1992 to 2013.

- 1) Small Businesses accounted for 63% of net new jobs
- 2) Small Businesses account for 48% of all private sector employees

Thank you,

Frank
